

LN 534

24 February 1959

DPD-1378-59
COPY 1 OF 2**Subject: Contract BC-450, Proposed Hourly Rates****Dear Sir:**

Pursuant to the provisions of PART V, REPRICING of the SCHEDULE of the subject contract, Contractor herewith submits as Exhibit "A" its Proposed Fixed Man Hour Rates for the period 1 February 1959 through 30 June 1959.

The overhead and general and administrative rates presented constitute the Contractor's best estimate of actual rates which will be applicable to the subject contract during the Contractor's fiscal year ending 31 January 1960. The man-hour rates are an average of the expected actual rates to be paid during the period 1 February 1959 through 30 June 1959.

Contractor anticipates that the equipment turnover through the Maintenance and Overhaul facility will be at a reduced level after 1 March 1959. The Maintenance and Overhaul staff has therefore been reorganized to handle this workload at maximum possible efficiency. Although this reorganization results in a higher overhead rate, Contractor believes that the equipment will be processed at a lower total cost per unit of work. This reorganization will be completed by 1 March 1959, therefore, the job classifications listed at the end of Exhibit "A" will only be used as direct charges during February 1959.

Contractor estimates that an annual material handling burden rate of will be incurred during the period of this proposal. This rate will be added to all material furnished under this contract.

STAT

In order to facilitate an early audit we have transmitted one copy of this letter together with Exhibit "A" directly to your local auditor.

Very truly yours,

HYCON MFG. COMPANY
